Part B

Case study

You are a coach volunteering at a hockey (field hockey) club in your area. The club has teams that play in the local league. The club currently has two women's teams and four men's teams. Over the last five years the club has started two extra junior teams and now has a total of three junior hockey teams. The club is growing because the sport is becoming more popular in the area.

The hockey club has three hockey pitches based on a large playing field that the club bought 20 years ago. The club uses an old wooden clubhouse for administrative duties and for changing facilities. The clubhouse has a small kitchen for making refreshments after matches and for social events.

It is difficult for all the teams to play in matches at the weekend and to be able to train during the week because of the facilities.

The hockey club has been given £1.5 million by a retired hockey player who would like the club to expand.
